

Karnataka Monitoring Team Structure

The following table explains the government structure and their roles and responsibilities for the programme:

a) Personnel	b) Definition	Expected roles and responsibilities for the programme
State Level (Karnataka)		
Directors of Public Instruction (DPIs) & Deputy Directors of Public Instruction (DDPIs)	State level authority from DSERT	Key decision maker from state. Participates and provides feedback at the state level.
District Level (Karnataka is divided into 30 districts)		
DIET Principal <i>(DIETs are government teacher-training institutes present in every district)</i>	Head and administer the DIET	Responsible for a district and supports Nodal Officers
Nodal Officers (NOs)	Selected cadre of DIET lecturers responsible for conducting regular trainings for CRPs and government teachers.	1 Nodal Officer is appointed at every block to support the BRLs and CRPs for scheduling the trainings and monitoring the progress of the programme. They also ensure that the materials are timely delivered to the training venues.
Block Level (Each district is divided into multiple blocks)		
Block Resource Leaders (BRLs)	Government appointed leaders to provide planning and logistical support to CRPs.	Government appointed leaders to provide planning and logistical support to CRPs throughout the programme duration.
Cluster Level (Each block is further divided into multiple clusters. A cluster has 10-15 schools.)		
Cluster Resource Persons (CRPs)	Responsible for academic support to teachers and monitoring of up to 15 schools in their cluster.	Responsible for monitoring and providing content support to teachers of up to 15 schools in their cluster throughout the duration of the programme.
School Teachers		Responsible for programme implementation in schools.

Pratham also deployed a team to support the programme. At the state level, a senior Pratham staff member was responsible for overall coordination with DSERT in consultation with the state team members – 3-4 people responsible for training support, content creation and monitoring; and 1 measurement and monitoring associate responsible for coordinating data collection and analysis. In every district there were 4-5 district in-charges (this was reduced to 1-3 in 2017-18) who coordinated with the government officials at the district level and below to support and plan the activities in their district.
